The Upper Primary Language Syllabus was prepared by the Curriculum Development Division of the Department of Education and was coordinated by Annette Appa.

The Language Subject Advisory Committee as well as community members, teachers, inspectors, educators and representatives from government and non-government organisations have developed this syllabus through meetings, workshops and trialing.

This document was developed with the support of the Australian Government through the Curriculum Reform Implementation Project.

## Secretary's Message

The current reforms in education have been in progress since 1992. The Education Reform has emphasised community - based schooling, the use of vernacular language in schools, the introduction of Elementary schools and the expansion of Primary schooling to grade 8 and increased access to Grades 9 and 10.

The syllabus is to be used by Upper Primary (Grades 6, 7 and 8) students in Primary schools throughout Papua New Guinea. This syllabus develops, extends, links and builds upon concepts, skills and attitudes flowing from Lower Primary (Grades 3, 4 and 5). This syllabus provides a sound foundation for further learning in the reformed school system.

Students' language abilities already gained in their home environments and during the previous years of formal education must be respected, built on and extended. Indigenous language has a large part to play in our students' formative years and their first language should be used to promote a deeper understanding of difficult concepts when this is appropriate.

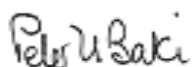

The Upper Primary Language Syllabus is designed to assist teachers while preparing language programs that will create secure and stimulating learning environments for young people still building their bilingual confidence and abilities.

Our students are entitled to a range of opportunities that will enable them to acquire the values and attitudes of a progressing nation. We need young people with the capacity to solve problems through reading and discussing widely. They should be able to contribute their ideas thoughtfully to help decisions to be made and to do so with full understanding and sensitivity.

Our villages and industries of the future will require young people with imagination and creativity. Their ideas and opinions will need to be conveyed accurately and appropriately whether it be humbly, persuasively or argumentatively. Literacy enables us to research, analyse, think critically, develop ideas and form opinions for our country, our province, our wantoks and for ourselves.

This Language syllabus encourages links with other curriculum areas to provide a language learning context. It respects our cultural diversity and traditions whilst moving forward into our rightful place amongst a global family at the start of a new millennium.

I commend and approve this syllabus as the official curriculum for Language to be used in all Upper Primary schools throughout Papua New Guinea.

Secretary for Education

# Learning Outcomes

## Numbering of Learning Outcomes

Each Learning Outcome is numbered with three digits, such as 6.2.3.

The first number refers to the Grade level. The second number refers to the Strand. The third number refers to the Outcome in the Strand.

Thus, 6.2.3 refers to an Outcome at Grade 6, Strand 2 and Outcome number 3.
